The notes of glory swell.
The Monners of Astrology, as practiced by thatest anodinary Swedish professor, Dr. Roback, late of Stockholm, and now of New-York, are not among the least striking of the phenomens of science. He seems not merely to have revived that art in which Navoleon trusted, and Sir Walter Scott is said to have believed, but has made new discoveries in it, which have led to the most startling results. The ancient Magi of Egypt and Assyria, could they revisit the earth, might learn something of this modern Diviner. His applications of the art are all practical. While in Sweden he cast the nativity of King Bernadotte, and predicted the year of his death. When General Inylor was supposed to have been annihilated by the superior forces of Santa Assar, Dr. Robnek issued an astrological circular, showing that the Old Hero's star was in the acceptant, and proclaiming, in defance of all the reports of his defeast, that he had been signally sictorious. Be of diseases, where threatisms have promounced the case hopeless, the hassusceeded. It well not do to say, these are chance coincidences. A YER'S CHERRY PECTORAL—For the Cure of Coughs, Co'de, Hearseners, Brouchitis, Whooping-Cough, Croup, Asthma, and Consumption.—Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and actoriety by far exceeding the most sanguine expectations of its friends. Nothing but its infrinsic virtues and the unnistaicable benefit conferred on thousands of sufferers, could originate and maintain the reputation it eligors. While many inferior remedies threat upon the community, have failed and been discarded, this has gained friends by every tind, conferred benefits on the afflected they can never forget, and produced cures too numerous and too remarkable to be forgotten.

medicine will infallibly cure—still there is abundant proof that the Cberry Pectoral does not only as a general thing, but almost invariably, cure the maiadies for which it is employed.

As time makes these facts wider and better known, this medicine has gradwally become the best reliance of the afficied, from the log-cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed every hamlet it contains, Cherry Pectoral is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent physicians. In Great Britain, France and Germany, where the necical sciences have reached their highest perfection. Cherry Pectoral is introduced, and in constant use in the Armies, H spitals, Alms-Houses, Public Institutions, and in domestic practice, as the surest remedy their attending physicians can employ for the more dangerous affections of the lungs. Also, in midder cases, and for children, it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The Cherry Pectoral is manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, coisequently can be relied on as genume without adulteration.

We have endeavored here to furnish the community with a nedicine of such intrinsion superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and counters the best results, and the afflicted with a remedy that will do for them all that medicine can do.
